EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with an attorney of record, Barry Dove, on 6/29/05.

2. The application has been amended as follows:

In claim 13, line 7, "coupled", second occurrence, has been replaced by -- connected --.

In claim 19, line 7, "coupled", second occurrence, has been replaced by -- connected --.

In claim 33, line 10, "coupled" has been replaced by -- connected --.

In claim 40, line 10, "coupled" has been replaced by -- connected --.

In claim 44, line , "electrically coupled" has been replaced by -- connected --.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: Claims 13-24, 33-44 are allowed.

Claims 33-39 are allowed because the prior art of record fails to disclose or suggest the inclusion of a second transistor whose further terminal connects to the further terminal of the

Art Unit: 2816

fuse and the further terminal of the first transistor as recited in claim 33. The inclusion of this limitation defines patentability over the prior art of record because it defines a distinguished structure of the fuse latch circuitry which is not taught by the prior art of record, alone or in combination. This distinguished structure allows the fuse latch circuitry to be re-interrogated periodically to correct the values stored in the corrupted fuse latch circuitry without interfering with access to the output of the fuse latch.

Claims 13-24 and 40-44 are allowed for the same reason noted in claim 33.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Minh Nguyen whose telephone number is 571-272-1748. The examiner can normally be reached on Monday, Tuesday, Thursday, Friday 7:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Timothy Callahan can be reached on 571-272-1740. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
